STAT

in the office of my Special Assistant for Counterintelligence, on a rotational assignment which ends 31 May 1979.

STAT

has done a superb job. He has pioneered in the preparation of the annual multidisciplinary counterintelligence assessment and has certainly set a high standard of performance.

Now, we need someone to replace in this community effort—one who will continue to stretch our thinking on counterintelligence matters on the one hand and, at the same time, add to his career growth. It would be most helpful if the replacement were of caliber and could arrive a day or two prior to his departure so that there could be some overlap.

Yours,

STANSFIELD TURNER

The Honorable William H. Webster Director, Federal Bureau of Investigation Washington, D.C. 20535
